

# Wedding at Restaurant Kanalen

In the beautiful old Annex, there is an unobstructed view of the beams and the high ceiling. The room is beautiful and elegant with Christianshavner history on the walls.

Here it is cozy and informal  
– the perfect setting.

## **Private surroundings with Christianshavner charm**

If the dream is a Copenhagen wedding, in the middle of the city, with authentic details, exceptional food and the water a few meters from the door, then the Annex at Christianshavn is the right location.

The annex belongs to Restaurant Kanalen, which for more than 30 years has delivered gastronomy at the highest level. Here, the guest is always at the center and pride is taken in creating weddings and parties that are tailored to the host couple and their guests. Here, 85 diners can sit at either long or round beautifully covered tables, with direct access to 2 private courtyards

With its open fireplace and exposed beams, this old sailing loft has charm all the way into the old brickwork. The perfect setting, whether it's a winter wedding in front of the flames or the summer wedding with a reception in the cobbled courtyard.

## The bliss of life

The wedding is an event full of traditions, emotions and expectations. We will of course do our absolute best to fulfill them and create an unforgettable day and celebration of love.

If the dream is a reception at sea, where you can toast in the sun around the city's canals, then larger cruises can dock at Gammel Dok/ Wilders Kanal, a few meters from the Annex.

A wedding in the Annex offers the opportunity for all the best the city has to offer. The restaurant allows the bride and groom to have a grand entrance from the water.
